P0804965-00 Rev B

Attach the auxiliary handle

4

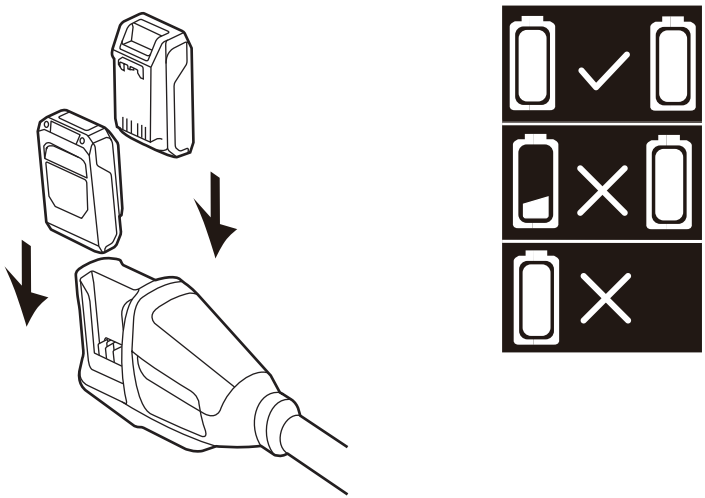

Attach the shoulder strap

5

OPERATION

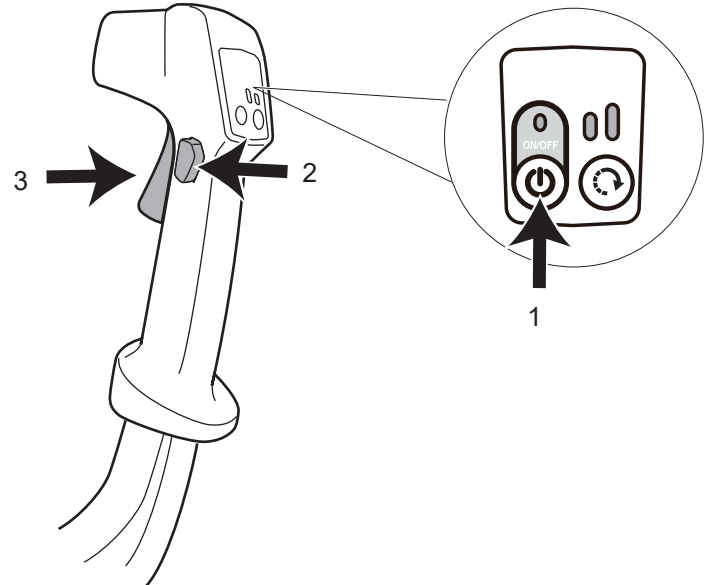

Install the battery packs

6

Start the machine

7

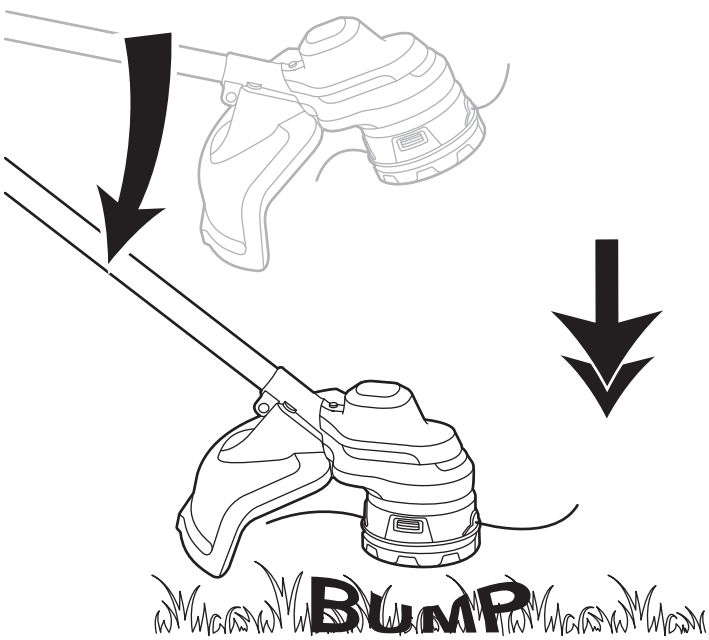

Operation tips

8

Adjust the length of the cutting line

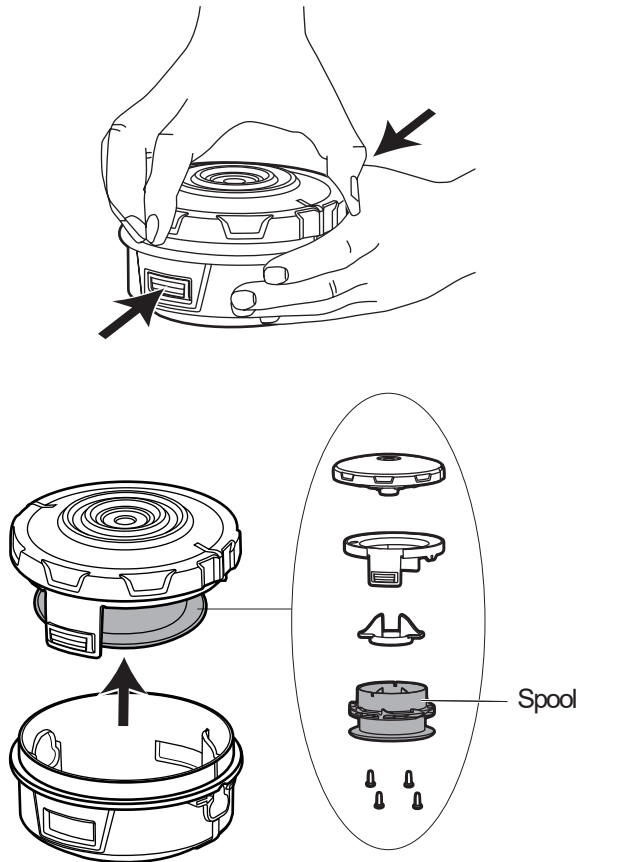

9

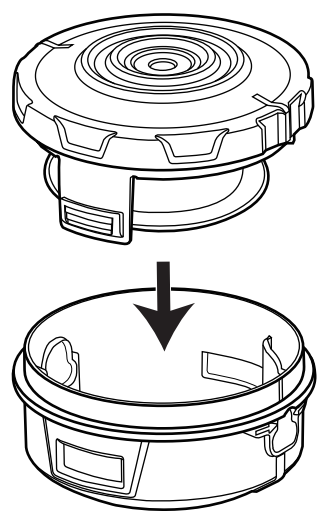

MAINTENANCE

Replace the spool

10

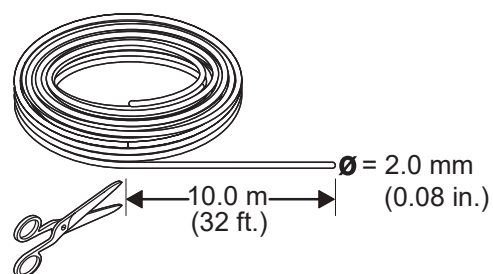

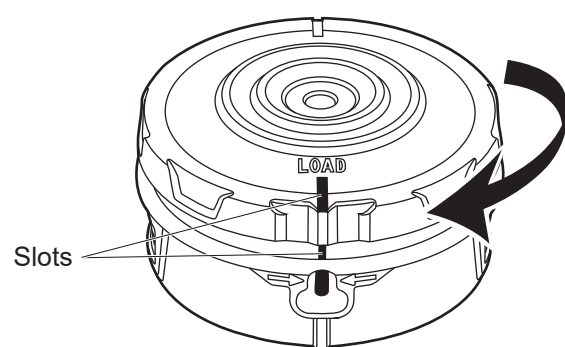

11

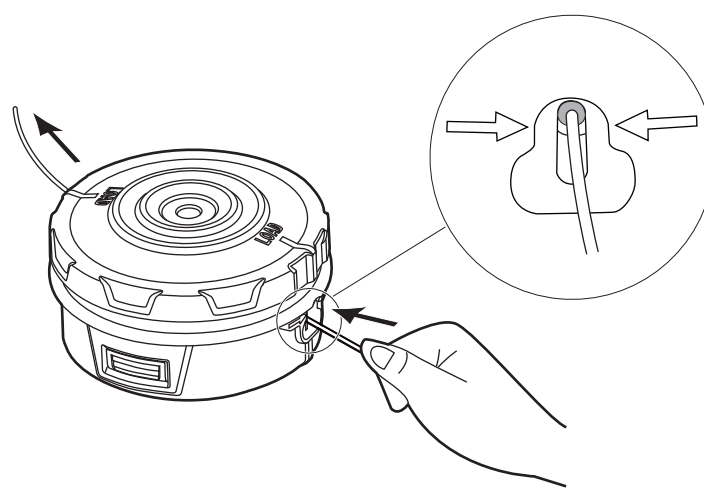

Install the cutting line

Rotate the spool cover to line up the slots.

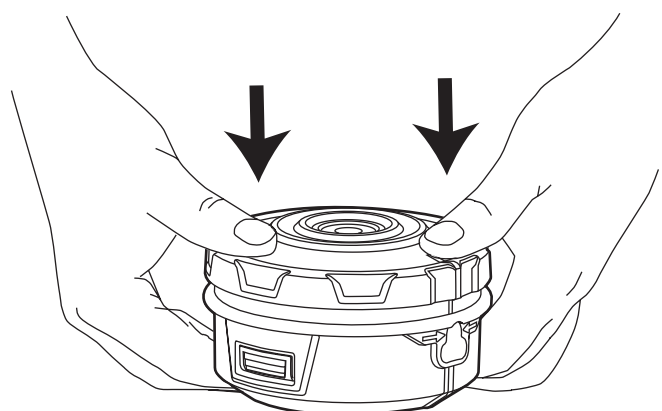

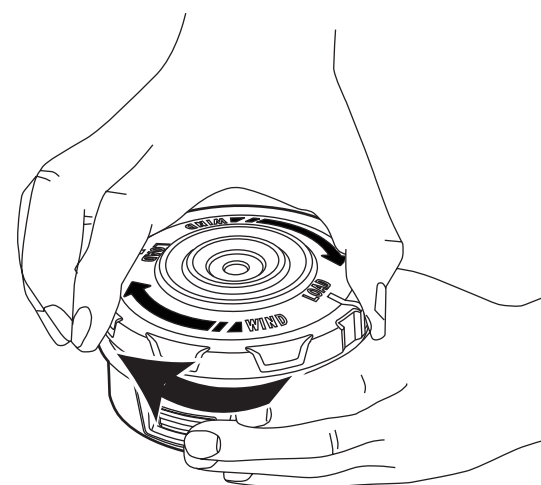

12

13

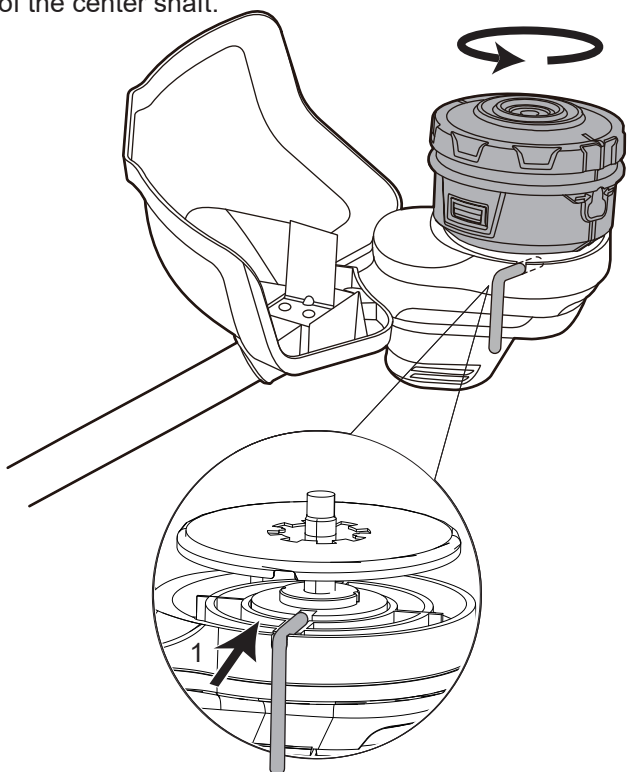

14

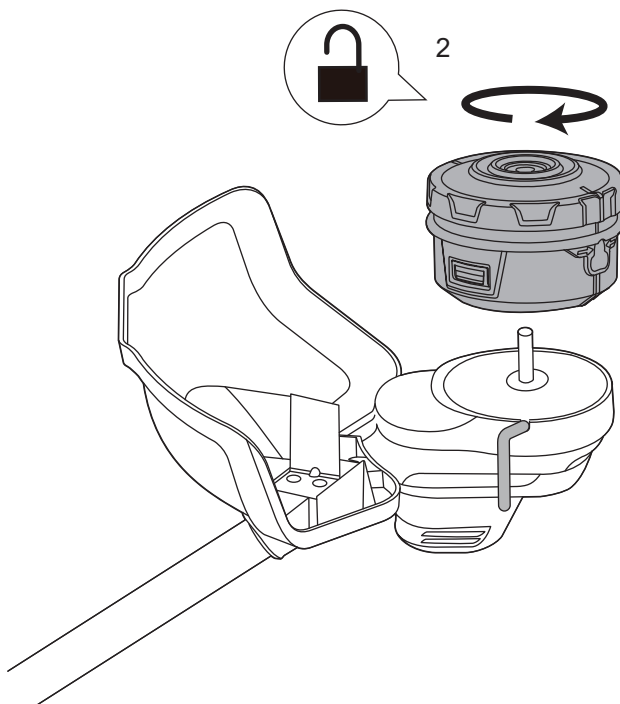

15

Change the string trimmer to a brush cutter

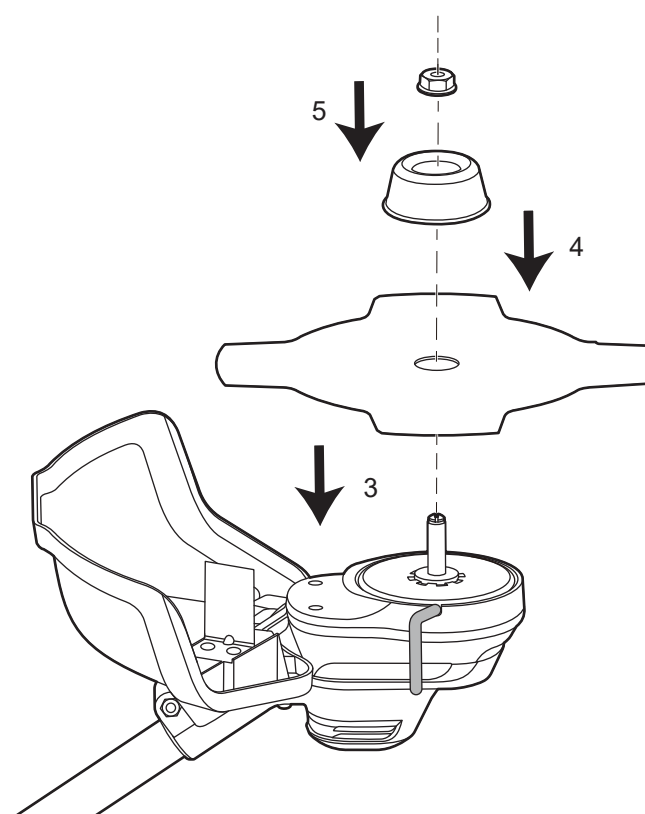

1. Put the metal rod in the specified angle transmission hole.
2. Turn the trimmer head and push the metal rod until it engages one of the holes in the inner cup, blocking rotation of the center shaft.

16

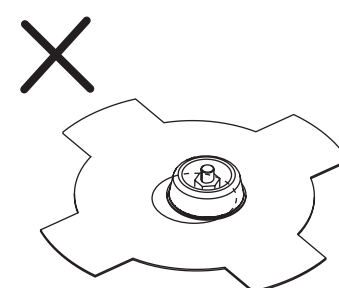

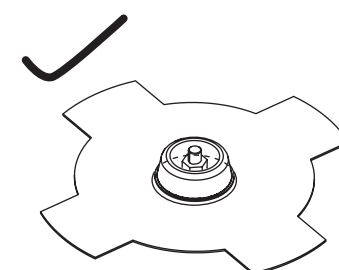

17

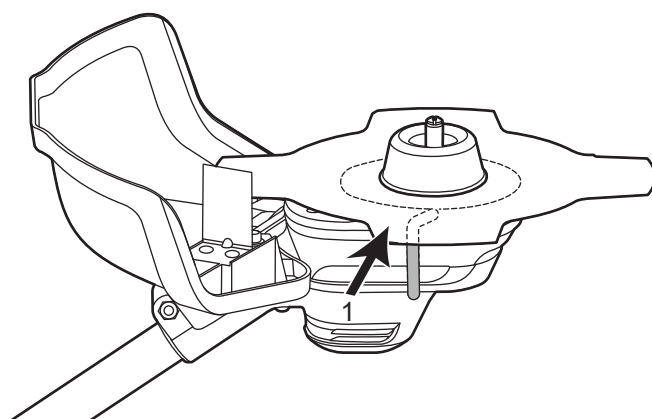

18

Make sure the blade and outer cup are in the center.
